“A tranquil location, exceptional standards, exquisite lifestyle”

Porto de Mós

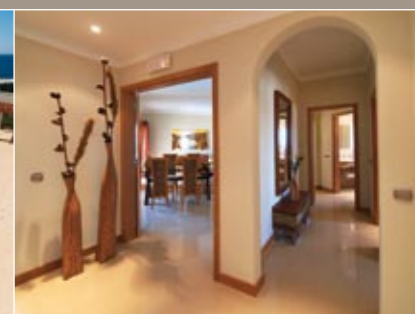

At Porto de Mos, a truly idyllic location has become the artist's canvas for luxury apartments of the very highest quality.

A beach front exclusive selection of only 12 apartments on the edge of the ocean near Lagos in the western Algarve, it is a masterpiece of design and construction.

Imagine the views at sun rise over the heated swimming pool just meters from a golden sandy beach.

Indoors everything is designed and finished in modern traditional Algarvean style with the ultimate attention to detail and specification. The last word in luxury.

“I am very easy to please,” said the great playwright and wit Oscar Wilde. “The best is good enough for me”. If he were around nowadays he would certainly wax poetic about Porto de Mos.

Condominium Features:

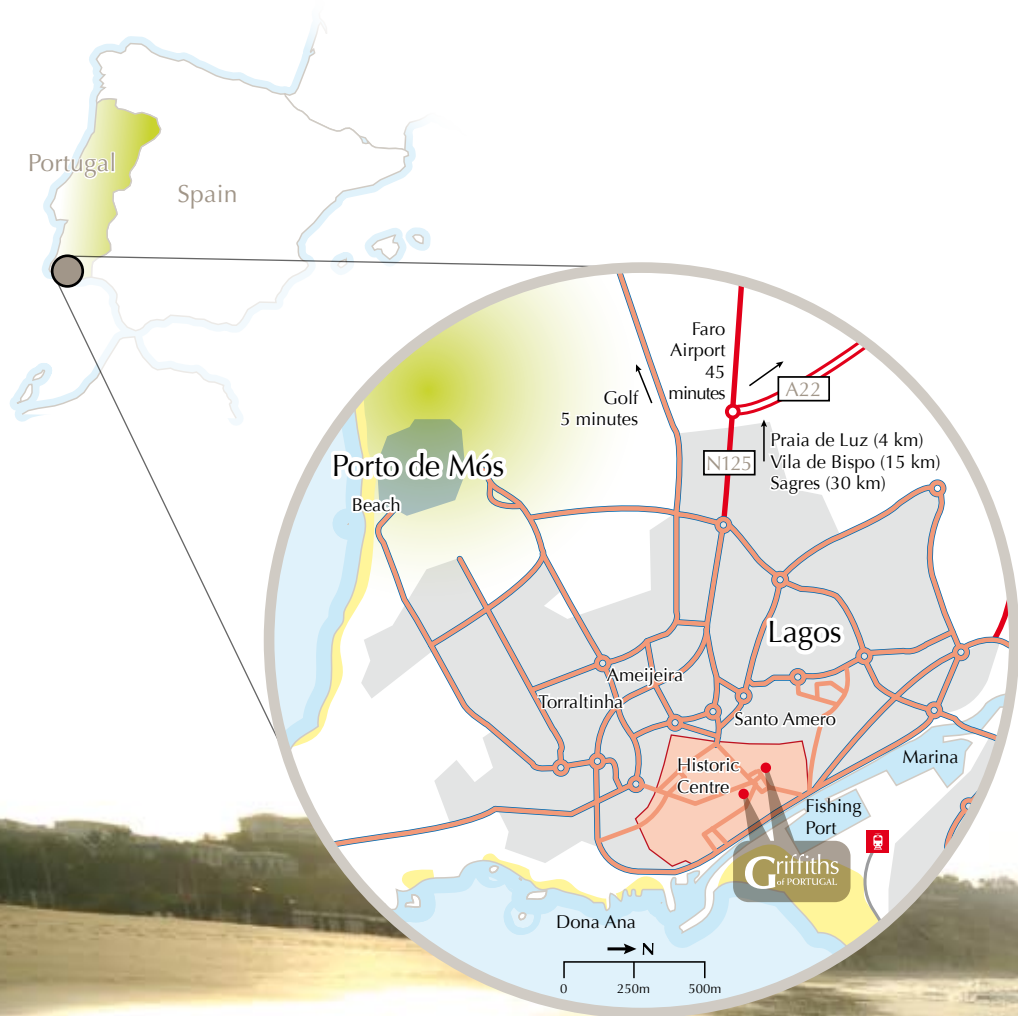

- Remote control operated main entrance gates and basement garage door
- Basement car parking & private storeroom
